

Data in Ed-Fi Reference Guide

June 2021

All Ed-Fi submission data lives in the district student information system (SIS) and is submitted to the Minnesota Department of Education (MDE) via the Ed-Fi application programming interface (API) with each data sync. Any data that is not MARSS data will be immediately available to MDE for reporting purposes. Each program description has a begin date and end date, and may contain supplemental information that relates to the program. Each program description may also have a set of rules defining the translation logic. Examples are included in the following descriptions to illustrate how the translation occurs between the Ed-Fi program records and MARSS records.
