STUDENT TRANSPORTATION REIMBURSEMENT RATES

OPEN ENROLLMENT AND CHARTER SCHOOL ENROLLMENT PROGRAMS

1. The amount of the payment shall be calculated by the nonresident school district for open enrollment students and for charter school students when the nonresident district is providing the transportation. The charter school shall calculate the amount of the payment for charter school students when the charter school is providing the transportation and collecting the state aid. The mileage reimbursement rate is 15 cents or actual cost, whichever is less.

2. The nonresident school district or the charter school may require a student to use public transportation if it is available and will result in a lower cost than mileage reimbursement.

3. Reimbursement will not exceed 250 miles of travel per week.
