

Dear Parent,

Thank you for your willingness to complete the Infant and Toddler Intervention *Family Outcomes Survey*. The Minnesota Department of Education is committed to ensuring that services and supports provided to you and your family are of high quality. Your opinion matters to us.

For each survey statement, please select which option best describes your family right now: not at all, a little, somewhat, almost, or completely. Please answer the questions on both sides of the survey. Place the survey in the envelope provided and send to:

Minnesota Help Me Grow Family Outcome Survey
Minnesota Department of Education
1500 Highway 36 West
Roseville, MN 55113

Your answers will be kept completely private by the Minnesota Department of Education. Your child's identification number on the survey allows us to combine your responses with responses from other parents from your school district and the state. The information will be used to measure the quality of programs and services as an important resource in making programs even stronger.

If you have questions about the Family Outcomes Survey, please call the Early Childhood Special Education team at 651-582-8473 or send an email to mde.ecse@state.mn.us. We value your input.
