

Explanation of Levy Limitation and Certification Report and Levy Certification Timelines 2018 Payable 2019

September 7, 2018

Introduction

Review the 2018 Payable 2019 Levy Limitation and Certification Report (ED-00111) for your district. The reports were made available on or before September 8, 2018. This is a 40-page report that contains your district's levy limitations for certifying the proposed levies. This explanation will assist you in understanding the levy certification process and the report.

All school districts should certify a proposed levy to the home county auditor by September 30 (or by October 7 if the district has been granted an extension by the county auditor). However, due to September 30 and October 7 falling on a weekend, the information can be certified at the **beginning of business hours** on the following Monday.

Levy Certification Timelines

Levy certification timelines in effect for the 2018 Payable 2019 levy are as follows:

- a. On or before September 30, 2018, each school district must adopt a proposed 2018 Payable 2019 property tax levy and certify it to the county auditor. A copy of the proposed levies must be sent to the Minnesota Department of Education (MDE) by October 7, 2018 (**beginning of business hours** on October 8, 2018). Adoption of the proposed levy requires school board action.

No Changes

No changes in levy limitations or levy data will be accepted after September 30, 2018, except as provided in paragraph d) below.

- b. School districts are required to meet the Truth in Taxation requirements for levy year 2018, taxes payable 2019. School districts are no longer required to hold a separate Truth in Taxation hearing, but are required to discuss the payable 2019 levy and the current year (Fiscal Year (FY) 2019) budget at a regularly scheduled board meeting and allow the public to speak. All districts must have this discussion at a board meeting as there is no longer an exemption for districts whose levy is not increasing. The meeting must take place after November 24, 2018, but before the final levy is adopted (by December 27, 2018). The meeting must also take place at 6 p.m. or later. The district may adopt the final levy at

this same meeting. The date of this meeting must be announced at the board meeting when the proposed levy is adopted and published in the minutes of that meeting.

Review Payable 2019 Truth in Taxation instructions on the [Department of Revenue website](#). There is also a link to this site on the Levy section of the MDE website. Questions concerning the Truth in Taxation requirements or the public property tax levy meeting should be directed to Auditor/Treasurer Services at the Department of Revenue at 651-556-6091.

- c. The final property tax levy must be adopted by the school board and certified to the home county auditor on or before five working days after December 20 (December 28, 2018). The district must send a copy of the final certified levy to MDE, Division of School Finance, by the January 7, 2019. Revised Levy Limitation and Certification Reports will be issued in mid-November for your use in certifying the final 2018 Payable 2019 property tax levy.
- d. Under Minnesota Statutes, section 275.065, subdivision 6, the district's final property tax levy must not exceed the proposed levy, except by an amount up to the sum of the following amounts:
 - i. the amount of a referendum levy under Minnesota Statutes, section 126C.17, subdivision 9, or a capital projects referendum levy under Minnesota Statutes, section 123B.63, subdivision 3, approved by district voters after the proposed levy was certified.

Districts are required to provide written notice to the County Auditor at least 53 days prior to every school district election held under Minnesota Statutes, section 126C.17 (operating referendum), section 475.58 (bond issue), section 123B.62 (facilities bonds), section 123B.63 (capital project referendum), or section 126C.69 (capital loan referendum). This same notice must also be provided to the Commissioner of Education at least 49 days prior to the election.

At least 15 days prior to the day of a referendum, the school district shall submit a copy of the required first-class mailing to the county auditor and to the commissioner of education.

- ii. the amount of a levy to pay principal and interest on bonds approved by the voters under Minnesota Statutes, section 475.58, after the proposed levy was certified. This allowance does not apply to bonds issued after the proposed levy was certified if the bonds were issued without voter approval in accordance with Minnesota Statutes, section 475.58.
- iii. the amount of a levy to pay costs due to a natural disaster occurring after the proposed levy was certified, if that amount is approved by the commissioner of revenue, per section (ii) of the section below.
- iv. the amount of a levy to pay tort judgments against a district that became final after the proposed levy was certified, if the amount is approved by the commissioner of revenue, per section (i) of the section below.
- v. the amount of an increase in levy limits certified to the school district by the commissioner of education after the proposed levy is certified.
- vi. the amount necessary in accordance with Minnesota Statutes, section 126C.55, to pay for a potential default in payments on school district tax anticipation certificates of indebtedness, aid anticipation certificates of indebtedness, or general obligation bonds.

- e. Under Minnesota Statutes, section 275.065, subdivision 6(a), a school district may appeal to the commissioner of revenue for authorization to levy an amount over the amount of the proposed levy under paragraphs (iii) or (iv) above. The district must provide evidence satisfactory to the commissioner that it has incurred costs for the purposes specified. The commissioner may approve an increase in the district's levy of up to the amount of costs incurred or a lesser amount determined by the commissioner. The commissioner's decision is final. An increase in the levy may be approved only if the following costs are incurred after the proposed levy is certified:
 - i. the unreimbursed costs to satisfy judgments rendered against the district by a court of competent jurisdiction in a tort action excess of \$50,000 or 10 percent of the current year's proposed certified levy, whichever is less; or
 - ii. costs incurred in clean-up of a natural disaster.

Review the [Levy Limitation and Certification Calendar](#) for a more detailed outline of key dates for 2018 Payable 2019 levy certification.

Levy Certification Process

Districts are required to use the web-based Levy Certification System for certifying both the proposed levy and the final levy.

You should request access to the Levy Certification System now if you did not do this last year. You will also need to request an MDE user ID and password if you do not already have one.

Please review the initial levy limitation components to insure your district has received the maximum limitation amount to which it is entitled (*see next section*). If the maximum levy limitation for a levy component is based on an incorrect estimate, the district should contact the appropriate Division of School Finance staff member to make a revision to the levy limitation. Certifying an under levy based on an incorrect levy limitation in a levy component may result in a reduction in state aid or an incorrect future levy adjustment.

If possible, it is recommended you enter and validate the proposed levy in the Levy Certification System prior to the school board meeting. This will give you an opportunity to review and fix any errors before the board actually certifies the levy. After the board meeting, update the certification data if any changes were made by the school board, and then **Certify** the levy on the Levy Certification System. A report will then be available for your use in certifying the data to the home county auditor. The certification report must be signed by the school board clerk and delivered to the home county auditor no later than September 30, 2018 (**beginning of business hours** on October 1, 2018). A copy of the signed report must also be submitted to MDE, Division of School Finance, 1500 Highway 36 West, Roseville, MN 55113, or [Daley Lehmann](mailto:daley.lehmann@state.mn.us) (daley.lehmann@state.mn.us) and [Levy staff](mailto:mde.levy@state.mn.us) (mde.levy@state.mn.us) no later than October 7, 2018 (**beginning of business hours** on October 8, 2018).

With the Levy Certification System, districts have the option to levy maximum. For these districts, county auditors will be instructed to use the levy limitation certified to them by MDE after October 7, 2018. This certification to the county will include all revisions made, if any, to the maximum levy limitation from the date the district certified through October 7, 2018.

Districts may also choose to certify a specific dollar amount, whether the levy limit or an amount less than the levy limit. For these districts, county auditors will be instructed to use the lesser of the dollar amount certified by the district or the maximum levy limitation certified by MDE. If the maximum allowable levy is increased after the levy is certified by the school board, the board will need to recertify the levy by the October 7, 2018 (**beginning of business hours** on October 8, 2018), in order to levy the maximum allowable levy. When certifying the maximum for any component, do not dollar-round.

Levy Limitation Calculations

The first 29 pages of the Levy Limitation and Certification Report provide general background information and show how your district's levy limitations were calculated.

Type of Levy	Page	Location on Page
Offsetting adjustments	26-28	Lines 3001-3046
Levy after offsets	28	Lines 3500-3506

Offsetting Adjustments

Pages 26 and 27 show your district's offsetting adjustments. These adjustments are used to ensure that the maximum levy limitation in each Levy/Fund Category is not less than zero. Offsetting adjustments are calculated because county auditors cannot spread levies based on a negative tax rate. Offsetting adjustments essentially move the net negative from one levy/fund category to another category with a net positive balance.

Since offsetting adjustments are calculated for the General and Community Service Fund levy categories as a group, interfund transfers of levy revenue may be needed. Contact MDE for accounting instructions necessary to record levy revenues correctly. If there is not enough levy authority within the General and Community Service Funds, or within the General Debt Service Fund, or within the OPEB/Pension Debt Service Fund, any negative balance shown on page 27, Lines 3037 through 3040, will be carried forward to Payable 2018.

Maximum Effort Loan Aid

Maximum effort loan aid adjustments to school district levies are determined after the offsetting adjustments have been calculated.

Type of Levy	Page	Location on Page
Maximum effort loan aid adjustments	28	Lines 3507-3522

Taconite Referendum Payment and Adjustments

Taconite adjustments to school district levies are determined after the offsetting adjustments have been calculated.

Type of Levy	Page	Location on Page
Taconite referendum payment and adjustments	28-29	Lines 4001-4064

Revenue Summary

The revenue summary includes levies and state aids associated with levies. Because other state aids not associated with levies, federal aids and other miscellaneous local revenues, are not included, the amounts shown do not represent total school district revenue by fund. Also, if there are offsetting adjustments in one or more levy category, total school district revenue by fund will be over or understated by these offset amounts.

Levy Limitation Summary

Page 31 compares the district's 2017 Payable 2018 levy against the 2018 Payable 2019 levy and also summarizes the district's 2018 Payable 2019 levy limitations by levy category.

- General fund levies are subdivided into five categories: general referendum market value voter approved Job Opportunity Building Zones (JOBZ) exempt; general referendum market value other JOBZ exempt; general net tax capacity voter approved JOBZ exempt; general net tax capacity other general education (phased out in FY 2018); and general net tax capacity other JOBZ exempt.
- The community service fund has no separate category.
- The general debt service fund is subdivided into two categories: general debt service voter approved JOBZ non-exempt and general debt service other JOBZ non-exempt.
- The OPEB/pension debt service fund is subdivided into two categories: OPEB/pension debt service voter approved JOBZ non-exempt and OPEB/pension debt service other JOBZ non-exempt.

These divisions are needed to provide the detail required on the parcel specific Truth in Taxation notice. Please note that districts must certify an amount in each fund category on page 30 that is zero or greater than zero. County auditors cannot spread a levy based on a negative tax rate.

The proposed levy and certified levy data are not included at this time, but will be shown in versions of this report posted after the district certification deadlines.

Page 32 summarizes the district's 2018 Payable 2019 levy limitation by levy category, school district fund, tax base and truth in taxation categories, and should match the amounts shown in the Levy Certification System. 2018 Payable 2019 certified levy data is not included at this time, but will be shown in versions of this report posted after the district certification deadlines.

Pages 33 through 40 list each individual levy component included in each levy category, with a line number reference back to the computation of the specific levy authority. Please note the footnotes regarding the minimum limits and the amounts that must be levied to receive maximum aid.

Errors and Omissions

Your levy limitations were calculated using data from many sources. If your report lacks a limitation to which you are entitled, includes a limitation to which you are not entitled, or contains other errors, contact [Daley Lehmann](#) and [levy staff](#) at the Division of School Finance. If corrected reports are necessary, School Finance will provide them to the district and county auditor.
