

Every Student Succeeds Act (ESSA) Data Reporting-Dashboard Subcommittee

January 16, 2018

Meeting Overview

- Federal feedback update.
- Introductions.
- Purpose and process.
- Overview of existing reporting tools.
- Small group work: discussion of audiences, measures and emphasis.
- Next steps.

Federal Feedback Update

- MDE received initial feedback on the ESSA State Plan on December 18.
- Feedback was overall positive.
- MDE clarified two primary areas and re-submitted on January 3.
 - Exit criteria for comprehensive support and improvement schools
 - Reporting of disproportionate rates of students from low-income families, students of color, and American Indian students taught by ineffective teachers.
- We received approval of our ESSA plan on January 10.

Tell us:

- Your name and organization.
- The audiences you represent.
- One thing that excites you about data reporting.

Existing Reporting Tools

MDE currently has a variety of tools for users to access a multitude of data.

- Minnesota Report Card
- Data Reports and Analytics
- MDE-ORG
- Secure Reports (for educators and administrators only)
- Statewide Longitudinal Education Data System (SLEDS)
- Early Childhood Longitudinal Education Data System (ECLDS)

Small Group Discussion

Let's begin with a discussion of a new reporting tool and its audiences.

Guiding questions:

- What is the **purpose** of the data reporting tool?
- What **distinct audiences** need to use it?
- What are the **primary uses** for each audience?
- Are there **common threads** across audiences?

Existing Reporting Tools

Here are some broad categories of data to be reported under ESSA:

- Student outcomes – assessment and graduation
- School finance
- School climate and student engagement
- Staffing information
- Access to early learning, advanced coursework, and well-rounded education

Small Group Discussion

Next, let's discuss what is in a new data reporting tool.

Guiding questions:

- What data or measures are **most important** to you to include?
- Are there measures that are **less important**?
- What should the tool **emphasize**?

INTRANET REDESIGN

In Case of Emergency (on Front Page)

When I start a new job I want to know what to do in case of an emergency; who to contact, where to go, where the fire extinguishers and AED's are, what are the security desk & receptionist numbers, etc. Having this information on the front page would be helpful.
