

## Paid Lunch Price Reporting SY2020-21

The U.S. Department of Agriculture (USDA) requires all participants of the National School Lunch Program (NSLP) to report their most frequently charged student paid lunch price, by student group, to the Minnesota Department of Education (MDE). MDE then reports each participant's prices to USDA Midwest Regional Office.

Each time you login to the Cyber-Linked Interactive Child-Nutrition System (CLiCS), User Notifications will show the following input screen:

### Grade Grouping definitions:

- Elementary K-5
- Middle/Junior High 6-8
- High School 9-12

Please enter your most frequently charged paid meal price for all grades that apply in the appropriate category, even if not all grades in the category are served. If you do not serve any grade in a particular category, enter N/A.

Example: If your school serves K-6, enter your most frequently charged paid meal price in both the Elementary and Middle/Junior High categories and N/A (for not applicable) for High School.

If you are non-pricing, either by choice or by provision, enter \$0.00 in the appropriate category.

Example: If your school serves grades 9-12 and all schools are operating under the Community Eligibility Provision (CEP), enter N/A for Elementary, N/A for Middle/Junior High and \$0.00 for High School.

The screen will remain visible until all sponsors have completed this requirement. All student paid lunch price data must be entered by close of business on September 30, 2020. As of October 1, 2020, school nutrition program payments may be withheld until the participant has reported the appropriate student paid lunch prices.
