

Voluntary Prekindergarten-Funded Programs

This is a list of all voluntary prekindergarten- and school readiness plus-funded school districts and charter schools in the 2018-19 school year. This is state funding and local districts may use multiple funding sources. Please refer to your local school district or charter with more information on the supports and program(s) offered.

Schools that received first-time funding for the 2017-18 school year are funded through the 2018-19 school year. Funding is not available for the 2019-20 school year and beyond without additional funding from the Minnesota Legislature. Without legislative changes, these schools will not continue to be funded. Schools first funded in the 2016-17 school year will receive continued funding for the 2019-20 school year and beyond.
