## Homebound Service Indicator – Data Elements

# Homebound Reporting

- For reporting and state aid purposes, one hour of one-to-one instruction in the home is equivalent to one day of membership. Except for students enrolled in a four-day week.
- Districts are not limited to providing only one hour of instruction per day.
- Students with Individual Education Programs (IEPs) must be provided the services required in the IEP.

# 2020-21 Safe Learning Year

For the 2020-21 Safe Learning Year, if a student is confined to the home per medical authority:

- Provided instruction that is unique to the student due to their illness, the student could be reported as Homebound.
- The student would not be participating in distance learning like all the other students.
- The instruction would be done via Zoom, pre-recorded session, other virtual means. Not provided in the home directly from a teacher.

## Conditions that must exist to claim homebound instruction:

- Medical authority must provide written verification confining the student to the home.
  - No shopping or attending school events.
- Doctor's note needs a termination date.
- Instruction provided by a licensed teacher.
- One hour of one-to-one instruction must be provided for each Membership Day.
  - Doctor limits homebound visit to less than an hour.
  - Round to nearest hour.

# Not Considered Homebound

## Situations that are not considered homebound:

- Minnesota Pupil Fair Dismissal Act (PFDA).
- Students who attend part-time. Example, pregnant students who receive instruction in separate classroom.

- Students who are parents and whose child is sick or medically confined to the home.

# 15 Day Withdrawal

    - Re-enroll the student on the first homebound visit.

    - Withdraw the student on the 15<sup>th</sup> day absent.
    - Re-enroll the student on the day of the first homebound visit.

- IEP Placement- Students with an IEP placed in the home by the IEP team are considered part-time; each hour of instruction generates one membership hour.
