

Special Education Questions for State Approved Online Learning Provider Applicants

1. How many hours do you expect students to spend on online coursework daily or weekly?
2. Describe the way in which the program will carry out their Child Find responsibilities as required by Federal and State law.
3. Give an example of how direct and indirect service minutes as indicated on student's individualized education program (IEP) will be delivered in an online setting.
4. What role (if applicable) do Special Education Paraprofessionals play in the online education setting?
5. Will the proposed online program offer alternative assessment of student competency such as, but not limited to: Verbal answering of questions, individual virtual meeting with teachers, or displaying mastery of knowledge through a project based medium?
6. Is the language in your district/charter's Total Special Education System (TSES) such that it supports the delivery of Special Education services in an online model?
7. Is there an explicit and defined process for Special Education Case Management of students enrolled in a Supplemental Online Learning Program (specific to out of district/charter students?) If so, please explain the process.
8. How do you ensure that instructional staff are informed of, and provide, instructional modifications and accommodations needed by a student with a disability?
9. How do you ensure that instruction is designed and presented in ways that meet the diverse learning needs of students with disabilities?
10. How do you ensure that parents of students with disabilities are able to contact instructors and administrators when they are concerned that the instructional needs of their child with a disability are not being met?
11. How do you track the academic progress of students with disabilities and intervene when a student with a disability is not being successful with instruction, tests and assignments conducted online?
12. How do you respond when tracking the academic progress of a student with a disability, or a student who may have a disability, is indicating that they are not being successful with instruction, tests and assignments conducted online?
