

Ed-Fi Quarterly Meeting, February 2021

Ed-Fi Implementation Team

February 9, 2021

Presentation Acronyms and Definitions

Acronyms and Definitions

21st CLCC, 21st Century Learning Community Centers

AEO, Ancestry ethnic origin

API, Application program interface

DE, Digital Equity

EDIAM, Education identity and access management

EE, Early Education

EOY, End of year

MARSS, Minnesota Automated Reporting Student System

MCCC, Minnesota Common Course Catalogue

MDE, Minnesota Department of Education

MNIT, Minnesota Information Technology

SDK, Software development kit

SIS, Student information system

WES, Web edit system

Jennifer Dugan, *Welcome*

Adosh Unni, *MDE Government Relations update*

David Reeg, *MNIT Program Management update*

Mike Dolbow, *MNIT Ed-Fi Documentation update*

Gayra Ostgaard, *MDE Project Management update*

Marilynn Loehr, *MDE MARSS update*

Tara Chapa, *MDE Ed-Fi update*

Jeff Plaman, *Digital Equity update*

Welcome!

100% districts in Ed-Fi training

Congratulations, Tara Chapa!

District certification

Growing support, internally and externally

Expanding Ed-Fi data collections

Legislative session update

Ed-Fi Program Management, MNIT

2021-22 School Year Data Collection

Student Information System (SIS) vendors who are already certified on MDE's Ed-Fi System for the 2020-21 school year should prepare for implementation of the additional data elements for the 2021-22 school year.

[2021-22 Ed-Fi Test Sandbox Environment](#) is now available with the following profiles:

Minnesota-Twenty-One-Twenty-Two-SISVendor-Profile

Minnesota-Twenty-Twenty-One-SISVendor-Profile

Minnesota-Preview-SISVendor-Profile, *which includes additional implemented data elements not yet scheduled for rollout*

[2021-22 Ed-Fi API Documentation](#) is now available on GitHub:

Includes Student Enrollment Elements (including Early Education and additions to the 21st CLCC program), MCCC Elements, Digital Equity Elements, and Descriptors

2021-22 Data Mapping Matrix Ed-Fi 3.1.xlsx

2021-22 SIS Vendor and District Test Plan.docx, which includes certification test scenarios

[2021-22 Ed-Fi API SDK](#) is now available on GitHub.

New SIS Vendors for MARSS & Early Education

New Student Information System (SIS) vendors who are planning to certify for MARSS and Early Education in 2021 should begin with implementation of the 2020-21 Ed-Fi API.

[2020-21 Ed-Fi Test Sandbox Environment](#) is still available with the following profile:

Minnesota-Twenty-Twenty-One-SISVendor-Profile

[2020-21 Ed-Fi API Documentation](#) is still available on GitHub:

2020-21 Student Enrollment Data Mapping Matrix Ed-Fi 3.1.xlsx, which includes Early Education

2020-21 SIS Vendor and District Test Plan.docx, which includes certification test scenarios

[2020-21 Ed-Fi API SDK](#) is still available on GitHub.

2021-22 Ed-Fi API Implementation and Certification Deadlines

Digital Equity & 21st CLCC

Data will be collected and used in the 2021-22 school year.

Digital Equity Implementation follows Wisconsin model, used in other states, not specific to Minnesota.

21st CLCC changes are small – additions to student21stCenturyLearningCenterGrantProgramAssociations.

MDE deadline for SIS vendor Implementation is **May 31, 2021** for 2021-22 data collection.

MCCC

MCCC Ed-Fi data collection includes a large number of new Ed-Fi API resources and data elements.

MCCC Ed-Fi data collection will be piloted in the 2021-22 school year.

MCCC Ed-Fi data collection will replace the legacy MCCC data collection in the 2022-23 school year.

Homework for SIS Vendors

Please work with your project teams to estimate MCCC implementation work effort and timeframe for vendor certification.

Please communicate your work effort estimate and timeframe to the MDE Ed-Fi team.

Ed-Fi Technical Documentation

“Final” test plan and data mapping matrix loaded into 2021-22 folder in GitHub

Markdown versions of the test plan in the “sy2021-22” branch will be updated then merged in the near future*

Ed-Fi Program Management, MDE

District Timeline for Data Submission

New collections

Dual submission versus no dual submission

AEO and Ed-Fi data submission

Digital Equity

EE Pilot

MCCC Pilot

Anticipated Training Timeline

EE trainings

MCCC, April 2021

Digital Equity, April 2021

MARSS/Ed-Fi Certification Terms

Dual submission: submission of MARSS data A/B file upload + Ed-Fi sync.

To Certify: a district/charter can report MARSS data via Ed-Fi only.

Fall data certification webinars for comparing MARSS A/B files with Ed-Fi syncs held last fall

Year-End data certification webinars will be scheduled this summer

Verify District Data

Start with Comparison Reports in EDIAM profile

Then compare student counts in local MARSS WES reports using both data sources

Districts certify not MDE

MARSS/Ed-Fi Comparisons

42 Districts/Charters from the 19-20 & 20-21 cohort considering certification

Fall & EOY Collection Cycles are verified MARSS with Ed-Fi before certified.

These districts will be updated by end of February on their data verification status. If the data aligns, districts can work towards EOY verification, thus reaching certification and then able to report Ed-Fi only come 21-22 SY.

Equity concerns

Digital and paper data collection

Translations

October 1 deadline

Voluntary, but very important

Anticipated and past data use

Reporting Digital Equity data

Local use of DE data

Thank you!
